 - Exchange ActiveSync
- REST
 - Representational State Transfer

IBM mail support for Microsoft Outlook 2013

Positioning/Value Statement

“IBM mail support for Microsoft Outlook 2013” helps **selected** IBM Notes and Domino customers create more engaged employees, **avoid** rip-and-replace **costs**, and **preserves value** of existing IT, by allowing users to **choose** which email client works best for them – Outlook or Notes – with their existing Domino infrastructure...”

Value Proposition

Who is this for? Who's the target audience?

- CIOs and VPs of IT of existing IBM Notes and Domino customers, who are at-risk of migrating users to Microsoft Outlook/Exchange
 - Highest propensity are customers involved in:
 - M&A activities (Domino infrastructure where client choice is demanded)
 - Where IBM needs to co-exist with Microsoft Outlook
 - Competitively defend against Microsoft
- Who need to...
 - Avoid managing multiple messaging server systems
 - Sleep at night in spite of users who complain about their email client
- This capability is not for all customers and all markets

What is “IBM mail support for Microsoft Outlook 2013”?

- Allows Domino 9.0.x and Outlook 2013 to communicate via Exchange ActiveSync (EAS)
 - Outlook 2013 natively offers EAS account configuration
 - This is a capability vs. separate solution (i.e., IMAP, POP3, etc.)
- A lightweight Outlook 2013 add-in exposes additional functionality beyond what Outlook 2013 natively offers for EAS configurations
 - Leverages Domino REST services
- Capabilities
 - Mail, calendar, contacts, delegation, offline, search, Notes encryption, OOO, etc.
- Limitations
 - Outlook 2013 only (Win 7+)
 - No support for prior Outlook versions possible (only Outlook 2013 supports EAS v14)
 - No Mac support (EAS not supported for Mac Outlook offerings)

Requirements

■ Client

- Outlook 2013 on Windows only

■ Server

- Windows 64-bit / Domino 64-bit platform
- Requires:
 - Domino release 9.0.1
 - HTTP protocol
 - IDVault
- Language: English only Addon (at the moment)
- _

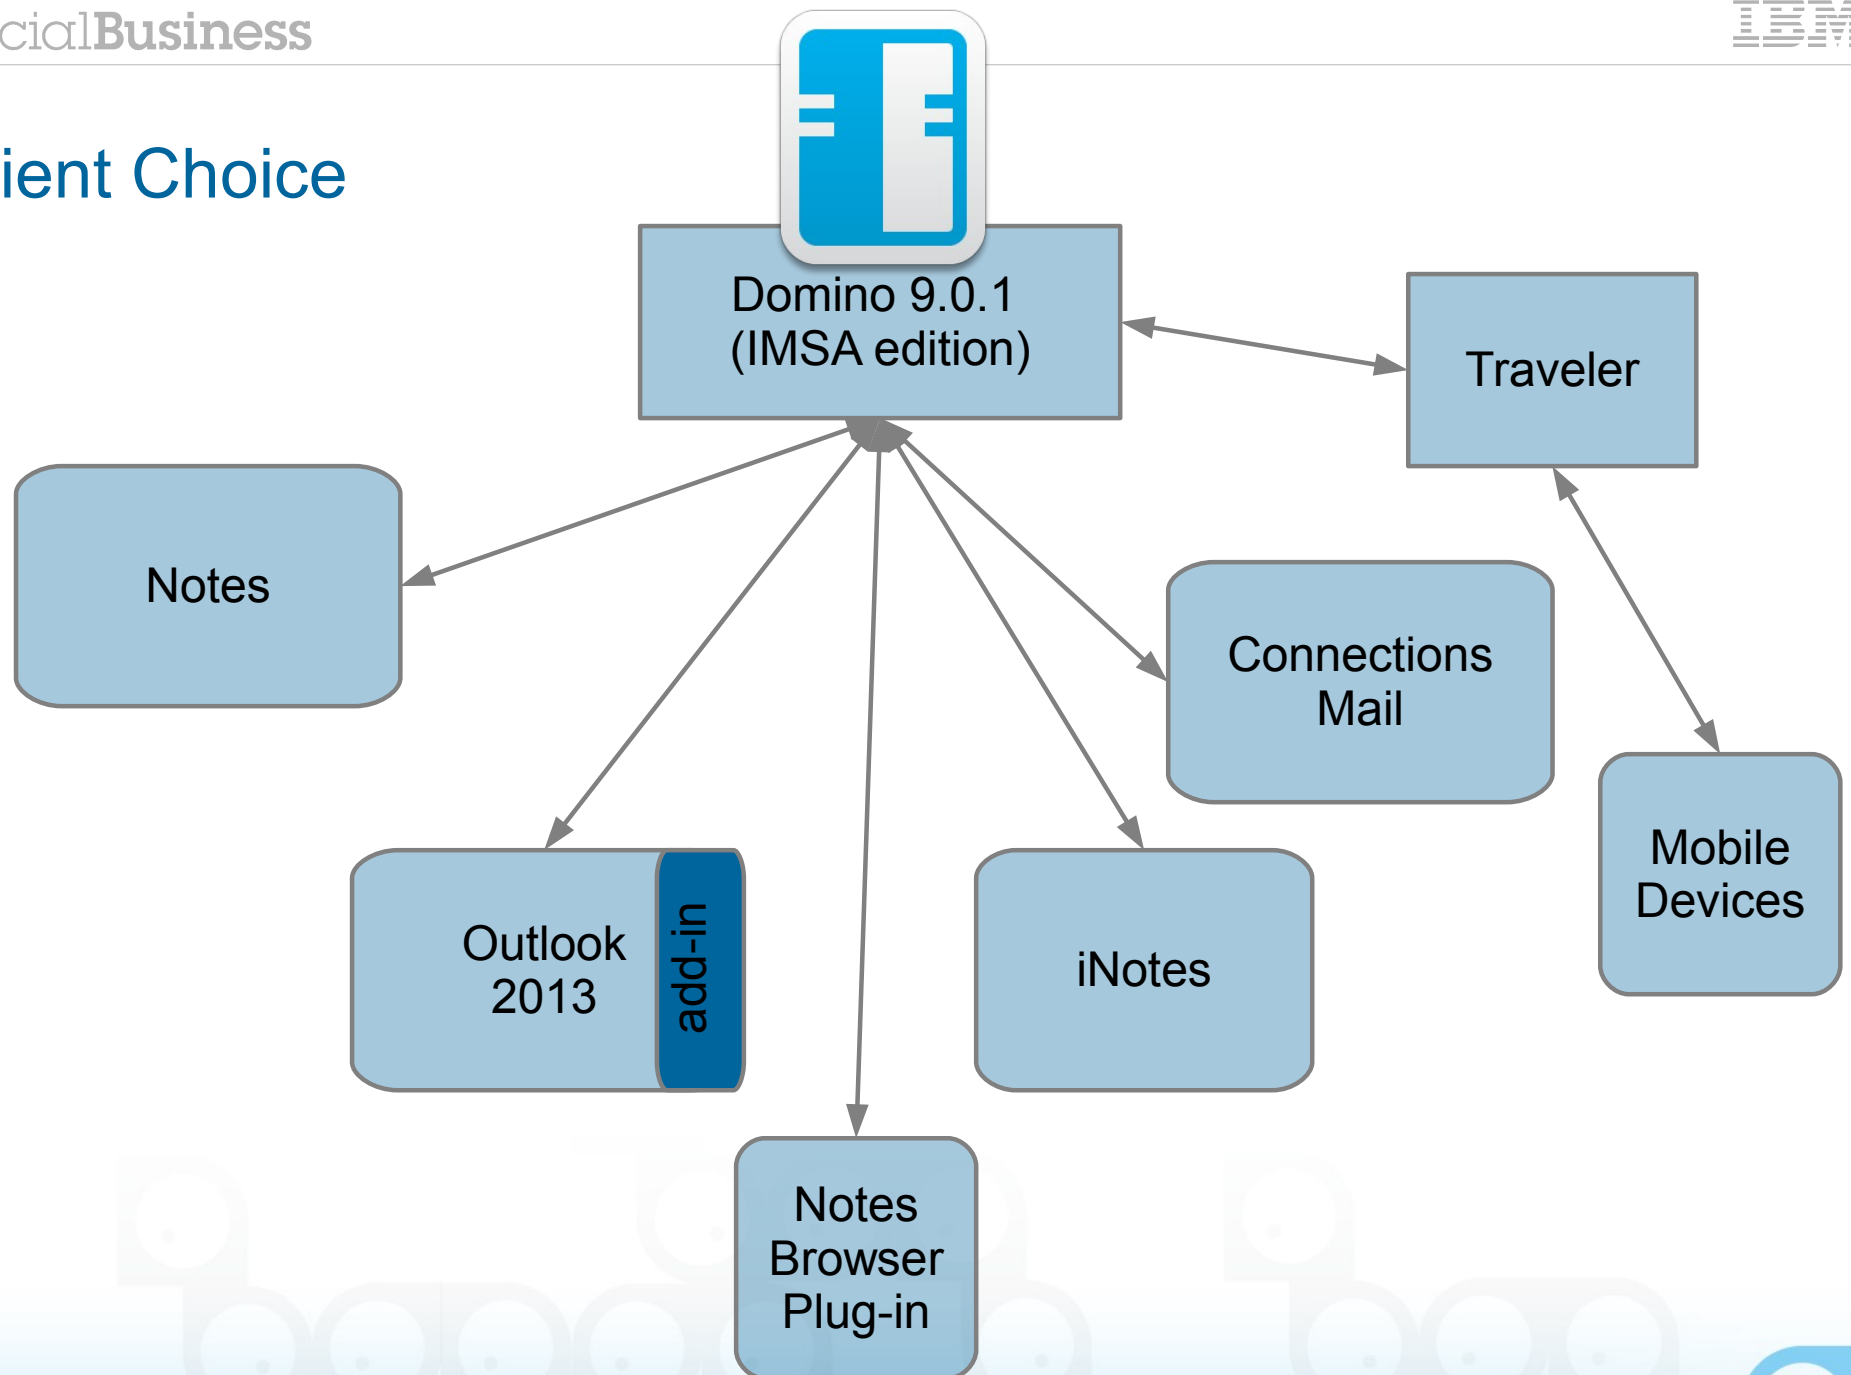

■ Other considerations:

- Clients must use local mail files (this is a synching solution, which means there is no direct server access for mail files)

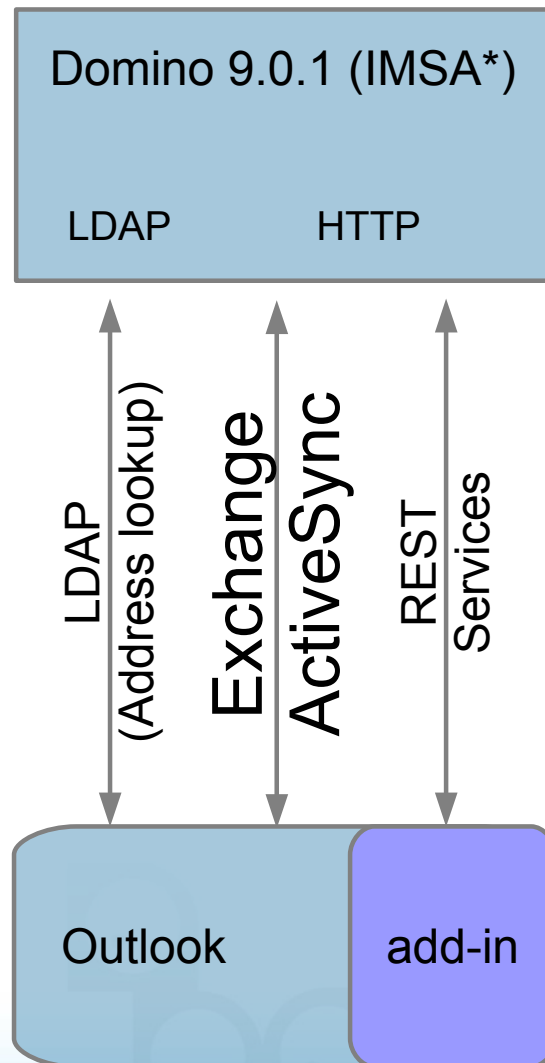

Client Choice

IBM mail support for Microsoft Outlook 2013

Architectural diagram

- Primary Domino communication via HTTP
 - Exchange ActiveSync synchronizes all data
 - Mail, calendar, contacts, folders
 - REST services expose advanced capabilities through the add-in
 - Out of office
 - Encryption
 - Room finder
 - Quota management
 - Delegate management
- Address book search via LDAP
 - Native Outlook capability
 - Any LDAP will work (not just Domino)

*IMSA = IBM Mail (SMO) support Add-on

IBM mail support for Microsoft Outlook 2013

Benefits of EAS solution

- Server-side implementation
 - Easy-to-maintain
 - Avoids a heavy client footprint
- Leverages and compliments existing Traveler product
 - Traveler is highly-used and well-tested
- EAS (Exchange Active Sync) is well-defined, well-documented, industry-approved
- Leverages the native *.ost data store (same as Exchange uses)
 - Performant and secure
 - Exposes most Outlook client features “for free”
 - Offline, search capabilities, advanced views and filtering, local archiving, local mail rules, social network integration, etc.

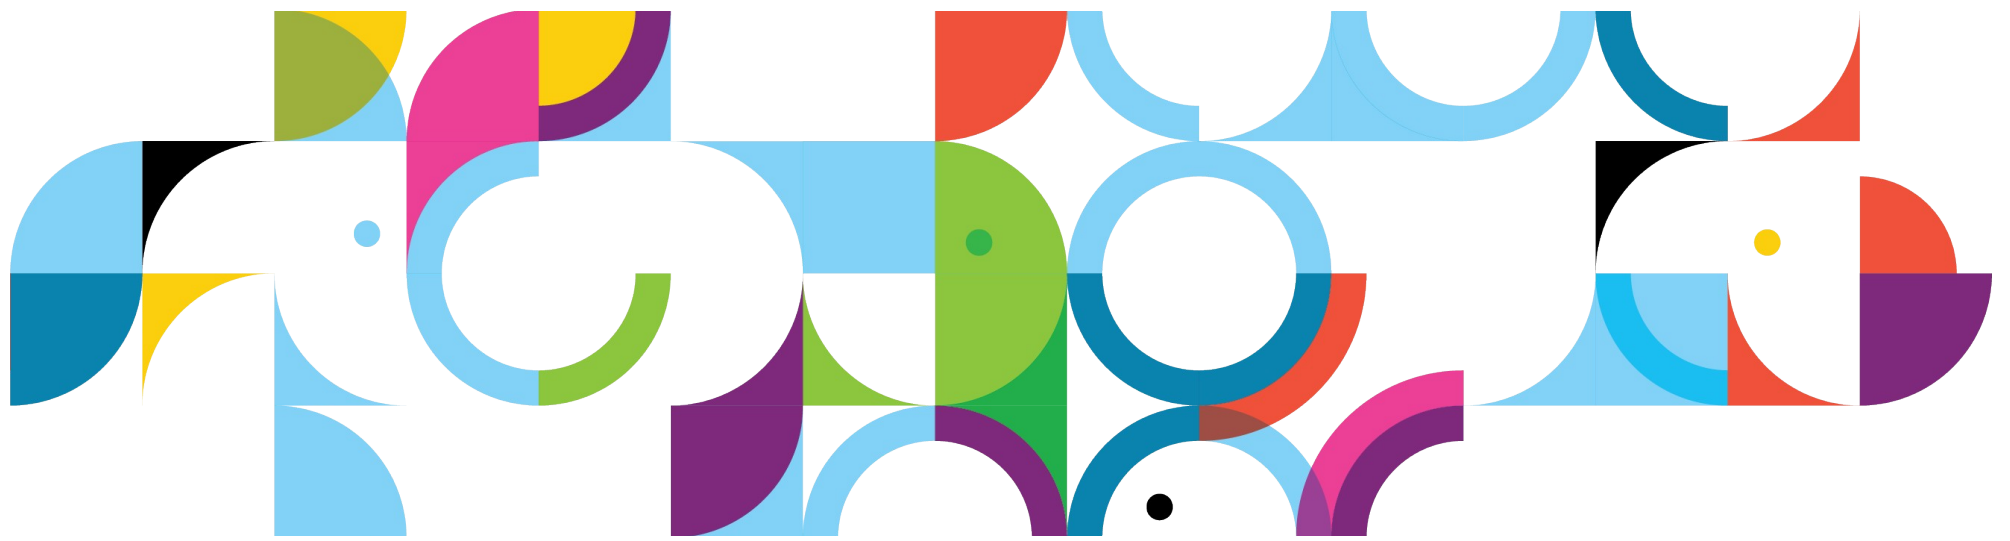

Target Milestones

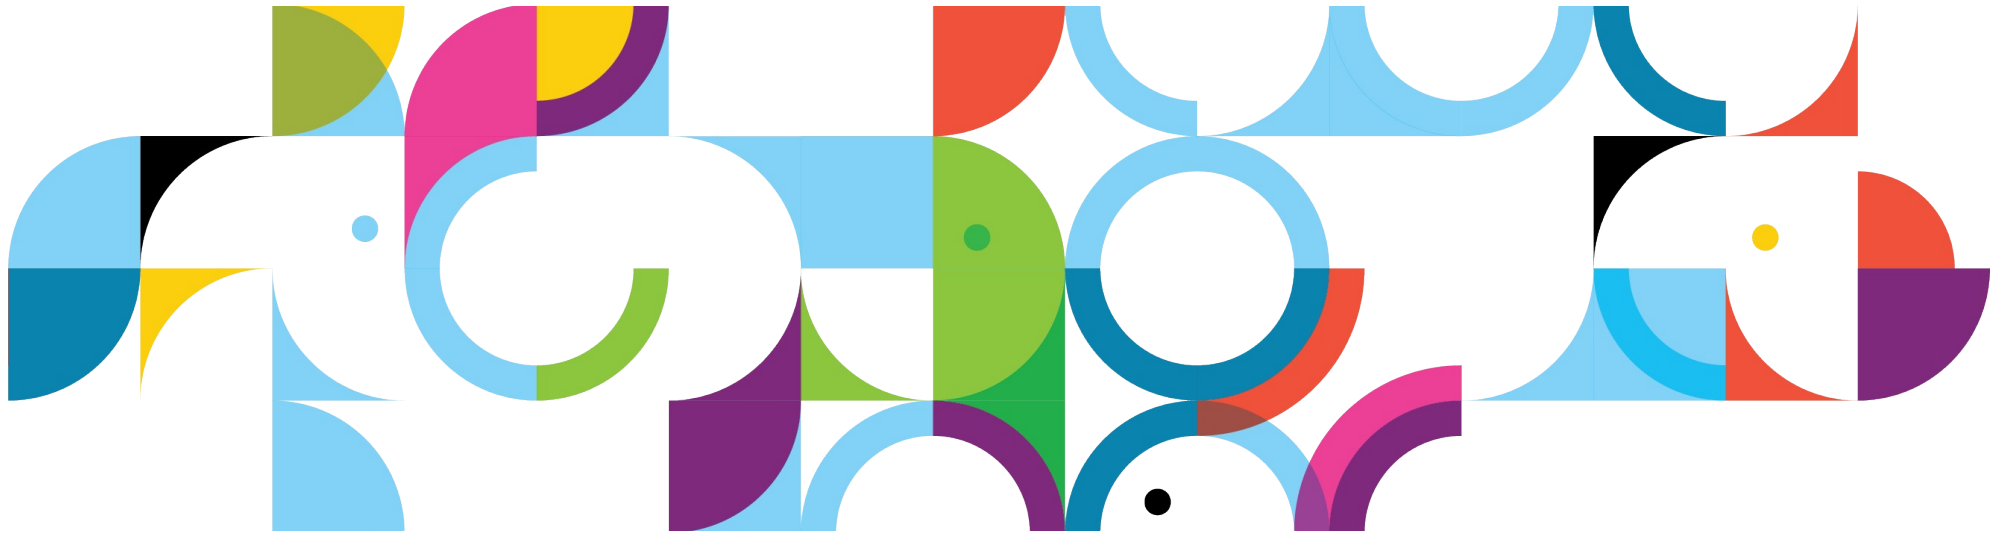

- November IMSMO IF 3
 - Global Language Support
- Q1/2015
 - IMSMO General availability (on request)
 - SmartCloud Notes
- General Availability will align with a future Domino release

Demo

Deep Dive

Administration(20.000m)

- Installation IMSA
- Konfiguration des Servers
- Installation IMSMO Addin auf den Outlook Clients

Administration (5000m)

- Domino (64) 9.0.1 FP1 oder FP2
 - Windows 64 Bit oder AIX
- Maildatenbanken müssen auf dem IMSMO Server liegen
 - Unterschied zu Traveler
- ID Vault

Administration (500m)

■ DB2

- Datenbankserver, für den produktiven Einsatz, erforderlich
 - Loadbalancing, Notes IMSMO Administration und Device Synchronization Data
- Für einen Test oder ein POC (max. 40 Anwender) wird Derby als Datenbank mitgeliefert und installiert
- Eine Unterstützung anderer Datenbanken ist geplant aber nicht priorisiert

■ HTTP/S

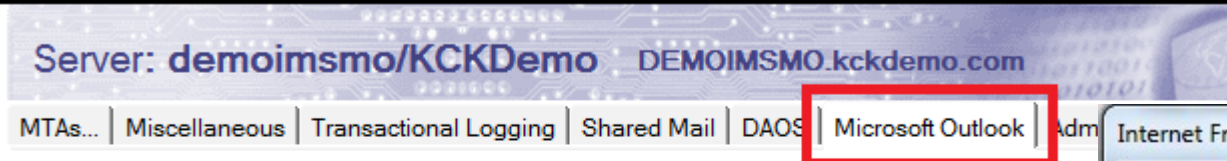

- Exchange Active Sync verlangt SSL
- SSL Zertifikat für Domino ist Pflicht oder aber eine vorgeschaltete Appliance oder ein SSL Proxy
- Die Outlook Clients müssen dem Herausgeber des Zertifikats vertrauen.
 - Verteilung des Herausgebers als Gruppenrichtlinie wenn dieser nicht bereits in der Liste der vertrauenswürdigen Herausgeber enthalten ist.

Administration Serverdokument

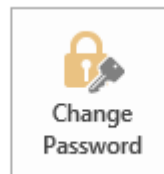

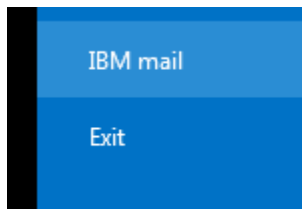

■ Neuer “Microsoft Outlook” Tab

- Link für “Freebusy URL” und “Password management URL”
- Diese URLs werden vom Outlook Addon verwendet bzw. Die “Freebusy URL” in Outlook gesetzt

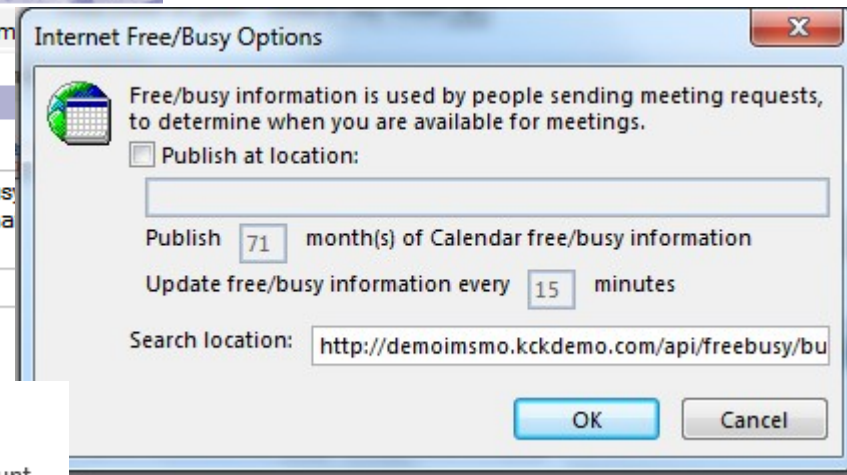

Basics

Microsoft Outlook support (2013 version only):	Enabled
Freebusy URL:	http://demoimsmo.kckdemo.com/api/freebusy/me?name=%NAME%@%SERVER%&format=ndar
Password management URL:	/PwdReset.nsf

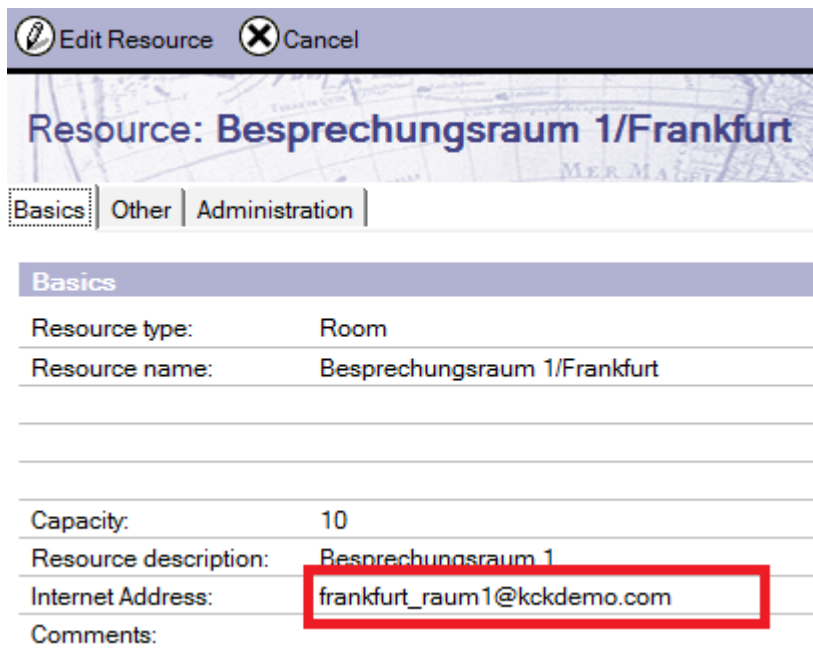

Change Password

Change your password on your Domino account.

Administration: Räume und Ressourcen

- Raum- und Ressourcenreservierung
 - Räume und Ressourcen benötigen eine Internet Adresse

The screenshot shows a web-based 'Edit Resource' dialog box. At the top, there are buttons for 'Edit Resource' (with a pencil icon) and 'Cancel' (with an 'X' icon). Below the buttons is a title bar that reads 'Resource: Besprechungsraum 1/Frankfurt'. Underneath the title bar are three tabs: 'Basics' (selected), 'Other', and 'Administration'. The 'Basics' tab is active, displaying a form with the following fields:

Resource type:	Room
Resource name:	Besprechungsraum 1/Frankfurt
Capacity:	10
Resource description:	Besprechungsraum 1
Internet Address:	frankfurt_raum1@kckdemo.com
Comments:	

The 'Internet Address' field is highlighted with a red rectangular border.

Administration: Passwortänderung

- Die Passwort Änderung ist eine Option des Outlook Addons
 - Die Passwortänderung erfolgt über eine Webanwendung
 - Wenn die URL im Serverdokument nicht vorhanden ist, wird diese Option nicht angezeigt
 - Beispiel für eine Anwendung wird mit Domino ausgeliefert:
PWDRestSample.nsf

Richtlinien/Mail Einstellungen 1/2

Calendar and ToDo/Display

Ask me before deleting calendar and to do documents:	<input type="checkbox"/> Yes	Don't set value ▼
Display new (unprocessed) notices:	<input checked="" type="checkbox"/> Yes	Set value and prevent changes ▼
Process cancelled meetings automatically:	<input checked="" type="checkbox"/> Yes	Set value and prevent changes ▼
<input type="radio"/> Remove from calendar		Set value and prevent changes ▼
<input checked="" type="radio"/> Show as cancelled in calendar		Set value and prevent changes ▼
Display To Do entries in the Calendar:	<input type="checkbox"/> Yes	Don't set value ▼
Calendar Overlay:	<input checked="" type="checkbox"/> Enabled ▼	<input type="checkbox"/> Don't set value

Richtlinien/Mail Einstellungen 2/2

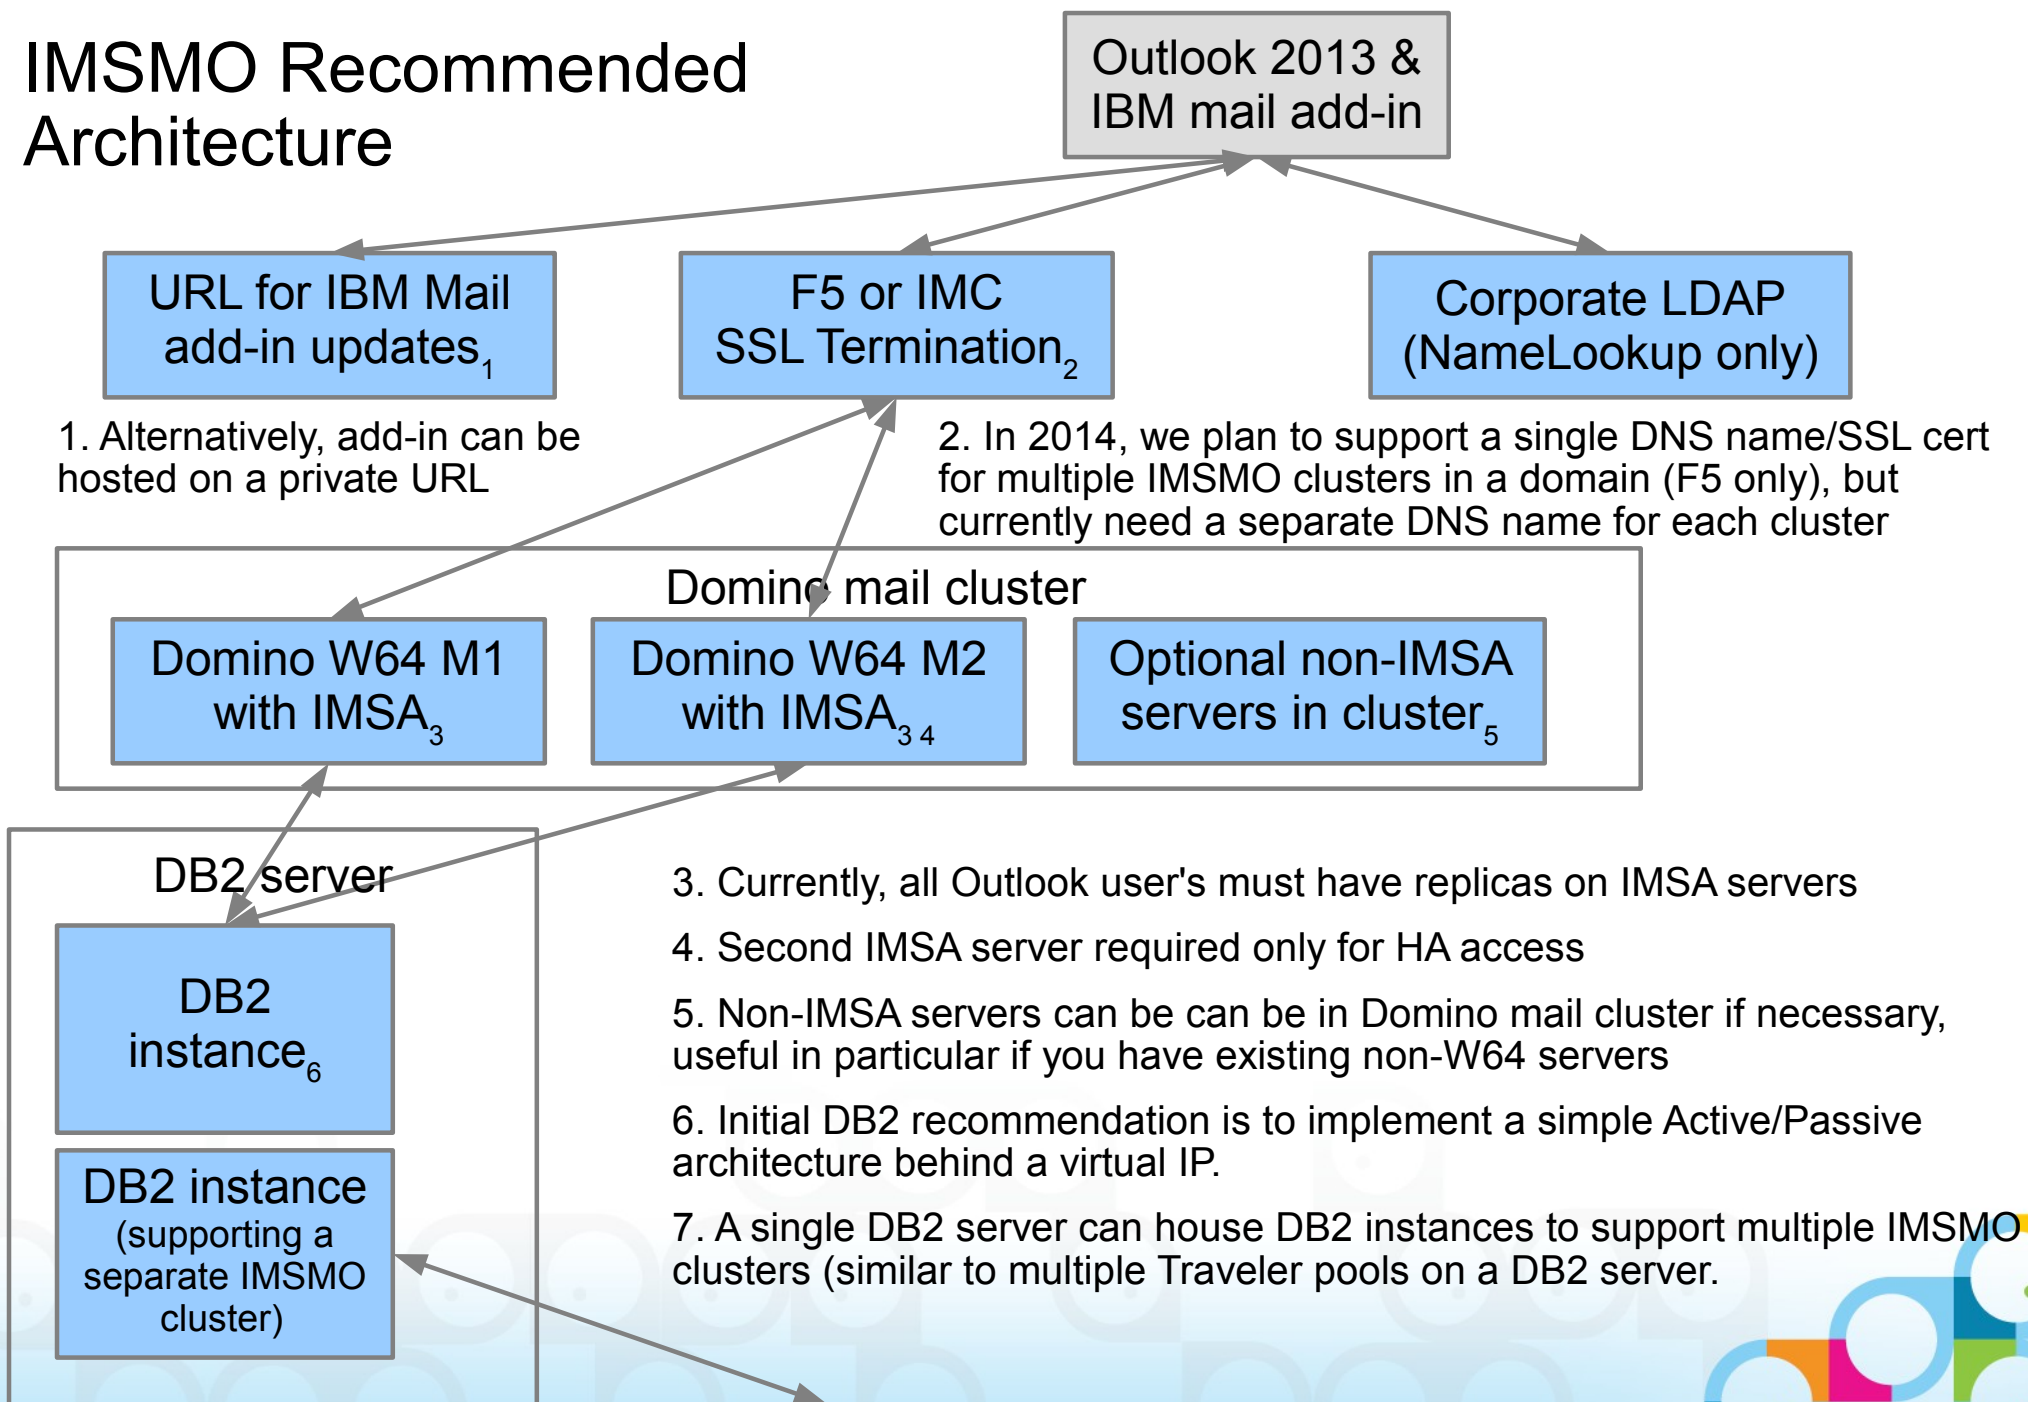

Calendar and ToDo/Notices

Displaying Calendar Entries in Mail Views		How to apply this setting:
Display the following meeting notices in user's Inbox:	<input type="text" value="All"/>	<input type="text" value="Set value and prevent changes"/>
Remove meeting notices from user's Inbox after user has processed them:	<input checked="" type="checkbox"/> Yes	<input type="text" value="Set value and prevent changes"/>
Display unprocessed meeting notices in the New Notices MiniView:	<input type="checkbox"/> Yes	<input type="text" value="Don't set value"/>
Don't display calendar documents in the All Documents mail view:	<input type="checkbox"/> Yes	<input type="text" value="Don't set value"/>
Don't display meeting invitations in the Sent mail view:	<input checked="" type="checkbox"/> Yes	<input type="text" value="Don't set value"/>

Update Notice Options		How to apply this setting:
When I add or remove meeting invitees, update the other participants:	<input type="checkbox"/> Yes	<input type="text" value="Don't set value"/>
Automatically process meeting updates and apply changes to meetings	<input checked="" type="checkbox"/> Yes	<input type="text" value="Set value and prevent changes"/>
Keep me informed of meeting updates when I delegate meetings	<input type="checkbox"/> Yes	<input type="text" value="Don't set value"/>
Keep me informed of meeting updates when I decline meetings:	<input type="checkbox"/> Yes	<input type="text" value="Set value and prevent changes"/>

IMSMO Recommended Architecture

Erfahrungen

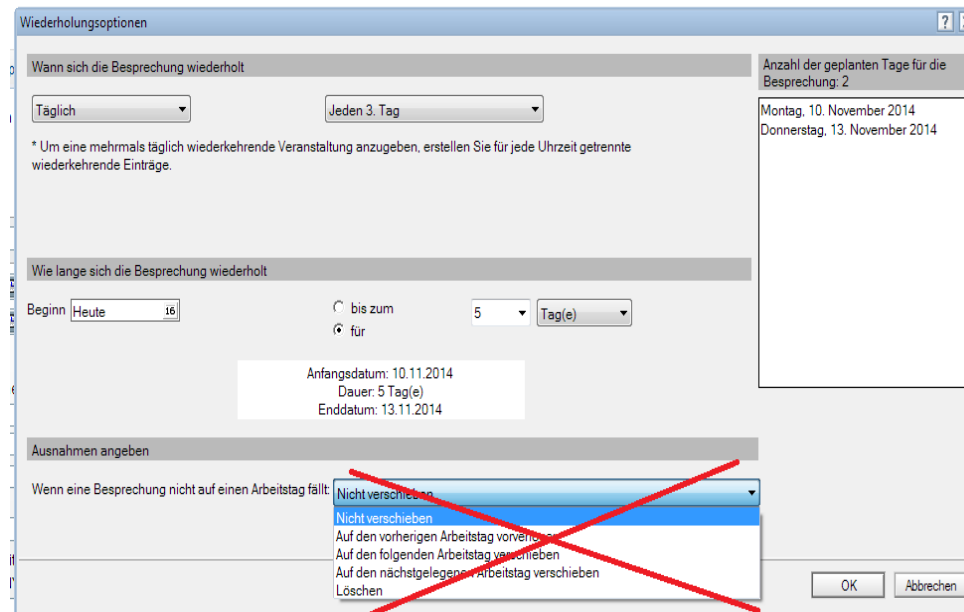

- 81 Kunden weltweit mit ca. 30.000 geplanten IMSMO Anwendern
- 10 Kunden in D mit geplant 4000 IMSMO Anwendern
- Anteil der IMSMO Anwender ca. 20% der gesamtem Notes/Domino Anwender der Unternehmen

- Geeignet für
 - Anwender in einem Unternehmen, die Outlook wünschen/benötigen, die nur einen Mailaccount haben.
- Nicht geeignet für
 - Den vollständigen Umstieg eines Unternehmens auf Outlook als Mailclient
 - Ein IMSMO Server skaliert schlechter als ein iNotes Server
 - Assistenten/Sekretariatsarbeitsplätze
 - Aktuell nur ein IMSMO Account möglich
 - Einschränkungen beim Mischbetrieb von Exchange und IMSMO/Outlook.com Accounts
 - Anwender, die häufig mit Notes/Domino Anwendungen arbeiten
 - Notes Browser Plugin/Webfähige Notes Anwendungen

Erfahrungen Kalender 1/2

- Notes kennt keine Termine, die über Mitternacht gehen...
- Outlook kennt keine komplexen Regeln, sondern nur einfache Wiederholungen

Wiederholungsoptionen

Wann sich die Besprechung wiederholt

Täglich Jeden 3. Tag

* Um eine mehrmals täglich wiederkehrende Veranstaltung anzugeben, erstellen Sie für jede Uhrzeit getrennte wiederkehrende Einträge.

Wie lange sich die Besprechung wiederholt

Beginn Heute 16:00

bis zum für 5 Tag(e)

Anfangsdatum: 10.11.2014
Dauer: 5 Tag(e)
Enddatum: 13.11.2014

Ausnahmen angeben

Wenn eine Besprechung nicht auf einen Arbeitstag fällt:

- Nicht verschieben
- Nicht verschieben
- Auf den vorherigen Arbeitstag vorverlegen
- Auf den folgenden Arbeitstag verschieben
- Auf den nächstgelegenen Arbeitstag verschieben
- Löschen

Anzahl der geplanten Tage für die Besprechung: 2

Montag, 10. November 2014
Donnerstag, 13. November 2014

OK Abbrechen

Erfahrungen Kalender 2/2

- Outlook unterstützt den iCalendar Standard nur unvollständig
 - <http://support.microsoft.com/kb/2643084/de>
The file "not supported calendar message .ics" is not a valid Internet Calendar file.
 -Die Besprechung enthält ein Serienmuster, das von der RDATE-Eigenschaft definiert ist. Die Sitzung umfasst eine entsprechende RRULE-Eigenschaft jedoch nicht. In diesem Fall wird Outlook nicht das Element öffnen, selbst wenn es die von RDATE-Eigenschaft unterstützten Serienmuster gibt....
- Lösung: Notes erlaubt seit 8.5 über eine Policy den Compatibility Mode zu setzen:
 - Configuring options in Domino 8.5 to improve interoperability with non-Notes calendar users:
http://www-10.lotus.com/ldd/dominowiki.nsf/dx/Configuring_options_in_Domino_8.5_to_improve_interoperability_with_non-Notes_calendar_users
- Übrigens: Google unterstützt den iCalendar Standard vollständig und versteht die Notes Kalendereinladungen, so wie es der Standard vorsieht

Side-by-side comparison: Outlook 2013 vs. iNotes 9.0...

Outlook 2013 interface showing the inbox for Jean-Philippe Desbois. The interface includes a ribbon with tabs like FILE, HOME, SEND / RECEIVE, FOLDER, VIEW, and IBM Connections. The left sidebar shows the folder list, including Inbox (12), Drafts, Sent Items, Deleted Items, Junk E-mail, Outbox, RSS Feeds, and Search Folders. The main pane displays a list of emails, with the selected email from Jeff Schick showing the subject "Plans for new facility" and a link to a technical specification.

Here's a link to the engineering specific...

Jeff Schick
To: Jean-Philippe Desbois

<http://ars.els-cdn.com/content/image/1-s2.0-S0029549312001732-gr4.jpg>

Water Consumption (from public supply, wells, etc.)

Sanitary water
laundry, fire fighting, irrigation, etc.

Demineralized water
for make-up, filling, flushing, etc.

Waste water
from sanitary water, laundry, drain, flushing, etc.

100%

Adding a new folder to one client “syncs” to the other...

The image displays two side-by-side Outlook windows illustrating email synchronization. The left window is the desktop Outlook client, and the right window is the Outlook web interface (OWA).

Left Window (Outlook Desktop Client):

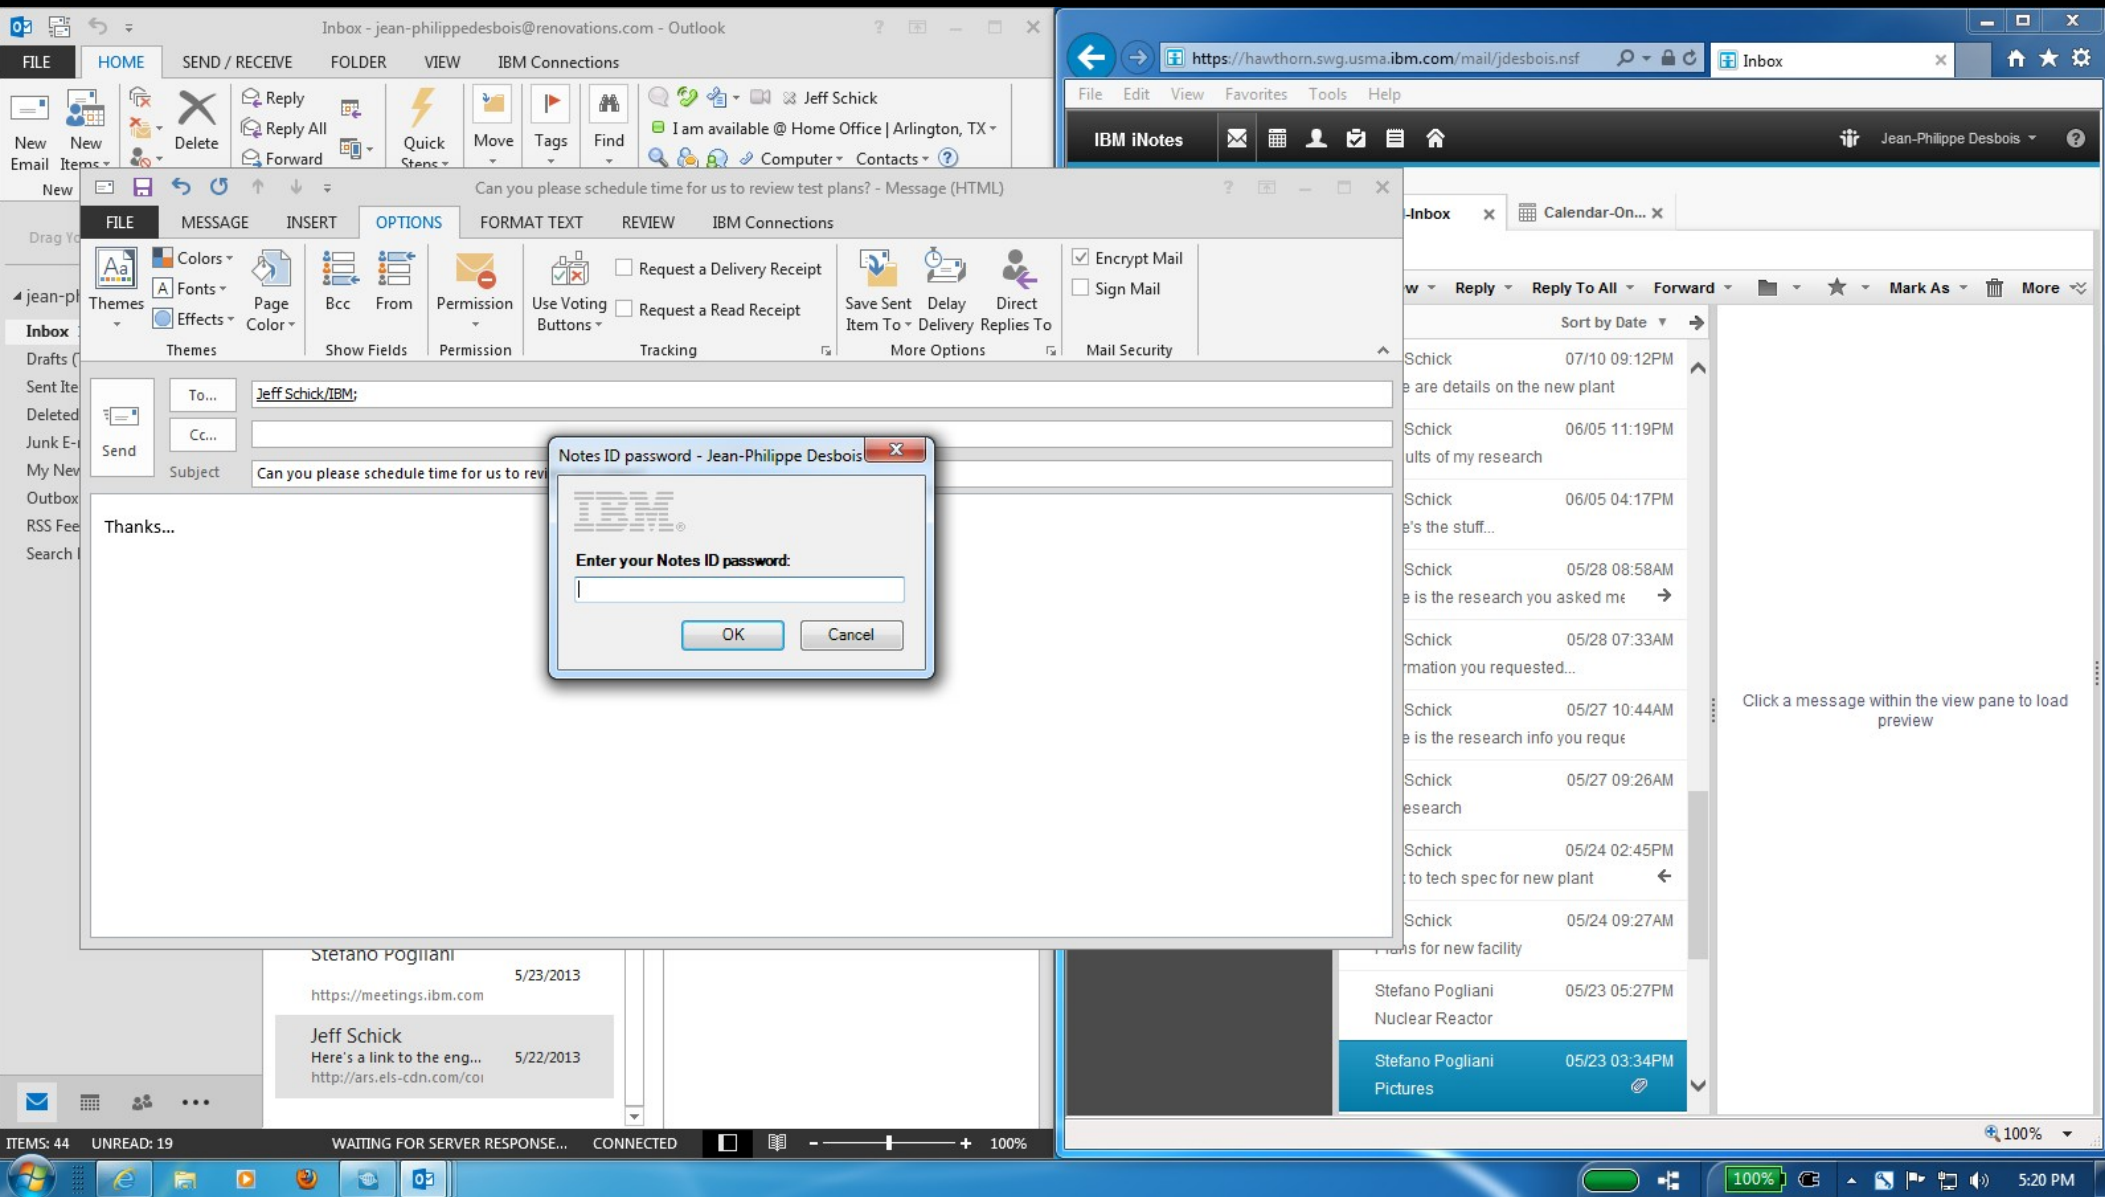

- Address bar: `Inbox - jean-philippedesbois@renovations.com - Outlook`
- Menu bar: FILE, HOME, SEND / RECEIVE, FOLDER, VIEW, IBM Connections
- Left sidebar: Shows folders like **Inbox 12**, Drafts, Sent Items, Deleted Items, etc.
- Mail list: A list of emails with columns for 'All', 'Unread', 'By Date', and 'Newest'. The selected email is from Jeff Schick, dated 5/22/2013, with the subject 'Here's a link to the eng...'. The preview pane shows a link to <http://ars.els-cdn.com/content/image/1-s2.0-S0029549312001732-gr4.jpg> and a diagram titled 'Water Consumption (from public supply, wells, etc.)'.

Right Window (Outlook Web Interface):

- Address bar: `https://hawthorn.swg.usma.ibm.com/mail/jdesbois.nsf`
- Menu bar: File, Edit, View, Favorites, Tools, Help
- Left sidebar: Shows folders like **Inbox (12)**, Drafts, Sent, Follow Up, All Documents, Junk, Trash, Views, Folders (including **My New Folder**), Tools, and Other Mail.
- Mail list: A list of emails with columns for 'New', 'Reply', 'Reply To All', 'Forward', 'Sort by Date', and 'Threads'. The selected email is from Jeff Schick, dated 05/22 10:04PM, with the subject 'Here's a link to the engineering specific...'. The preview pane shows a link to <http://ars.els-cdn.com/content/image/1-s2.0-S0029549312001732-gr4.jpg> and a diagram titled 'Water Consumption (from public supply, wells, etc.)'.

The synchronization is evident as the same email and its content are displayed in both the desktop client and the web interface, demonstrating that adding a new folder in one client syncs it to the other.

Support for encrypted mail and digital signatures...

Full calendar, free/busy time support in either client...

The screenshot displays the Outlook 2010 interface. In the foreground, the 'Appointment Recurrence' dialog box is open, showing the following settings:

- Appointment time:** Start: 5:00 PM, End: 5:30 PM, Duration: 30 minutes.
- Recurrence pattern:** ☒ Daily, ☒ Every 1 day(s).
- Range of recurrence:** Start: Tue 7/30/2013, ☒ End after: 4 occurrences.

The background shows the Outlook calendar view for the week of July 29, 2013, to August 2, 2013. The calendar is currently in 'One Work Week' view. The status bar at the bottom indicates 'Day 211 - 154 days left in the year' and '5:06 PM'.

Change a recurring meeting in either client...

The image displays two side-by-side windows illustrating how to manage a recurring meeting. The left window is the Microsoft Outlook desktop application, and the right window is the IBM iNotes web interface.

Microsoft Outlook (Left Window):

- Title Bar:** Calendar - jean-philippedesbois@renovations.com - Outlook
- Navigation Pane:** Shows 'My Calendars' with 'Calendar' selected.
- Calendar View:** A monthly view for August 2013. A recurring meeting titled 'Review Test Plans' is visible on Tuesday, August 6th, and Thursday, August 8th.
- Taskbar:** Shows the system clock as 5:18 PM and 100% zoom.

IBM iNotes (Right Window):

- Address Bar:** https://hawthorn.swg.usma.ibm.com/mail/jdesbois.nsf
- Navigation Pane:** Shows 'Calendar-On...' selected.
- Calendar View:** A weekly view for August 05, 2013 - August 09, 2013. The same 'Review Test Plans' meeting is visible on Tuesday, August 6th, and Thursday, August 8th.
- Meeting Details:** A pop-up window shows the meeting details for 'All Hands Room' on August 8th, 2013, with the subject 'Accepted: Review Test Plans'.
- Taskbar:** Shows the system clock as 5:18 PM and 100% zoom.

Room Finder support...

The screenshot displays the Outlook 2010 interface. In the background, a calendar view for 'July 29, 2013 - August 02, 2013' is visible, showing a grid of days from Monday 29 to Friday 2. The 'Find Rooms' dialog box is open in the foreground, titled 'Find Rooms'. It contains the following information:

- Room availability summary info**
- Site:** IBM
- Date:** 7/30/2013, 5:00 PM, Local time, Until: 5:30 PM, 0h 30m
- Room Size:** ☒ Any, ☐ Filter room size by number of attendees
- Select rooms to reserve:**
 - 1234 - Test/IBM (10)
 - All Hands Room/IBM (50)
 - Conference Room 2401/IBM (18)
 - Conference Room 2419/IBM (8)

The dialog box has 'OK' and 'Cancel' buttons at the bottom right. The Outlook window title is 'Calendar - jean-philippedesbois@renovations.com - Outlook'. The browser window in the background shows a URL: 'https://hawthorn.swg.usma.ibm.com/mail/jdesbois.nsf'.

Receive Doclinks in Outlook 2013...

The screenshot displays the Microsoft Outlook 2013 interface, split into two main windows. The left window, titled 'Inbox - jean-philippedesbois@renovations.com - Outlook', shows the 'Inbox' folder with 20 items. The list includes several emails from 'All Hands Room' with subject lines like 'Accepted: Review Test ...' and one from 'Jeff Schick' with the subject 'Here's the nuclear plan...'. The right window, titled 'Mail - Sent - IBM Notes', shows the 'Sent' folder with a list of emails sent to 'Jean-Philippe Desbois'. The selected email in the list has the subject 'Here's the engineering diagram for the Hinkley Point nuclear power plant'. The main pane of the right window shows the details of this email, including the sender 'Jeff Schick', the subject 'Here's the engineering diagram for the Hinkley Point nuclear power plant', and a document link icon labeled '[Link]'. The status bar at the bottom of the Outlook window indicates '1 document selected' and 'Online'.

Outlook 2013 interface showing email management and document links.

System Status: The bottom of the Outlook window shows 'ITEMS: 45 UNREAD: 20 WAITING FOR SERVER RESPONSE... CONNECTED' and a zoom level of 100%.

In Outlook 2013, open Doclinks in Notes Browser Plug-in...

The image shows a screenshot of Outlook 2013 and the Notes Browser Plug-in. The Outlook window displays an inbox with several emails from 'All Hands Room' and a conversation with 'Jeff Schick'. The Notes Browser Plug-in is open, showing a document review process for a 'Doc Library' entry titled 'Hinkley Point layout Diagrams, Reactor'. The document is 'Jeff Schick/IBM' dated '05/27/2013 09:20 AM'. The review options are set to 'One reviewer at a time' with 'No time limit for each review'. The document content is a diagram of a nuclear reactor system, labeled 'TMI-2', showing the 'REACTOR BUILDING' and 'TURBINE BUILDING'. The diagram includes components like the 'Reactor core', 'Control rods', 'Pressurizer', 'Steam generator', 'Turbine', 'Generator', 'Condenser', 'Condensate pump', 'Main feedwater pump', 'Circulating water pump', 'Reactor coolant pump', 'Pressurized relief tank', 'PORV', 'Block valve', 'Safety valve', and 'Cooling Tower'. The diagram is divided into 'Primary' and 'Secondary (non nuclear)' loops. The status bar at the bottom of the Outlook window shows 'ITEMS: 45 UNREAD: 20 WAITING FOR SERVER RESPONSE... CONNECTED' and the system clock shows '5:25 PM'.

Outlook 2013 interface showing the inbox and a conversation with Jeff Schick. The conversation includes emails from 'All Hands Room' and 'Jeff Schick'.
